

Tennessee's Pandemic Influenza Summit
Monday, April 10, 2006
1 p.m.

Sectoral Panel Discussions

Objective

To facilitate discussion among participants about what they can and should do to prepare themselves, their workplaces, and their communities for a pandemic.

Each session is facilitated by a physician from the Communicable and Environmental Disease Services Section (CEDS) of the Tennessee Department of Health (TDH) involved in pandemic response planning. Each participant in the state summit is invited to select the breakout session that best matches their professional interests.

Agenda

1. The facilitator will provide an orientation to the major issues facing each sector
2. Panelists answer the question, "What do you believe are the most important steps you or your organizations need to take to prepare for a pandemic?"
3. Open question and comment period with breakout participants
4. Adjourn to refreshments in the lobby with other summit participants
